Dhaka, Bangladesh

OBJECTIVE

Software Engineer focused on crafting robust solutions, not just apps. Aiming to be the best in the field by combining technical precision with a deep understanding of user needs to deliver high-performance results.

SKILLS

- **Programming Languages:** Dart, Python, C++, PHP, Java
- **Framework:** Flutter, HTML, CSS, Bootstrap
- **UI/UX:** Figma, Adobe XD
- **Database:** Firebase, MySQL
- **Hardware:** Arduino, NodeMCU
- **Technologies & Tools:** Visual Studio Code, Android Studio, Xcode, Google play Console, Google cloud console, Firebase Console, App Store connect, Postman, GitHub, Kaggle
- **Soft-Skills:** Project Management, leadership, Client Management, Communication, Teamwork, Adaptability, Creativity, Time Management, Problem-Solving, Critical Thinking,
- **Language:** English, Bangla, Hindi [verbal]

WORK EXPERIENCE

- **Cuebites ** DECEMBER 2025 - PRESENT
Senior Mobile App Developer - Part-Time (Remote) Sydney, Australia
 - As a Full-Stack Mobile Engineer, I took total ownership of the application's lifecycle, driving the product from initial concept and wireframing through to final App Store and Play Store deployment. I architected a scalable codebase that ensured high-performance, crash-free sessions while managing complex API integrations and local data synchronization. Beyond development, I collaborated with developers to align technical roadmaps with business goals and established automated CI/CD pipelines to ensure continuous, high-quality delivery and maintenance.
- **Betopia Group (formerly BdCalling IT Ltd) ** MAY 2025 - JULY 2026
App Developer (Team Leader) Dhaka, Bangladesh
 - Promoted to Team Leader, I direct all app development operations, including strategic planning, resource optimization, and stakeholder management. By eliminating technical hurdles and defining clear scopes, I ensure the successful, timely delivery of robust mobile applications.
- **BdCalling IT Ltd ** DECEMBER 2024 - PRESENT
App Developer Dhaka, Bangladesh
 - Collaborated with international clients to understand project requirements, conducted thorough requirement analysis to define project scope and objectives, and adhered to Agile methodology to ensure iterative development and timely delivery of high-quality apps.
- **Fortis Group ** MAY 2024 - AUGUST 2024
Software Engineer (Internship) Dhaka, Bangladesh
 - Analyzed user needs to design an intuitive mobile app for internal communication, built a user-friendly prototype using Flutter, incorporated stakeholder feedback for usability, conducted comprehensive testing to optimize performance, and iterated on multiple designs to enhance user experience and meet project goals.

EDUCATION

- **Independent University, Bangladesh [IUB]** Summer 2019 - Summer 2024
B.Sc. in Computer Science & Engineering [CSE] Dhaka, Bangladesh
 - CGPA: 3.08/4.00
- **Willes Little Flower School & College** May-June 2019
A-Levels[Science] Dhaka, Bangladesh
- **Willes Little Flower School & College** May/June 2016
O-Levels[Science] Dhaka, Bangladesh

CERTIFICATIONS

- **Cisco Networking Academy CCNAv7: Introduction to Networks** OCTOBER 2022

PROJECTS

- **Together: [Social Networking Platform designed for worldwide users]** [Play Store Link](#)
 - Served as Project Manager and Lead Developer for the complete Agile redevelopment of a legacy application. I directed the project from concept to deployment, rebuilding the architecture from scratch to include advanced features I conceptualized, such as AI-driven conversation starters, biometric liveness checks, and real-time map integration, Native In-App purchases, subscriptions, while ensuring robust multilingual support..
- **wecare: no more greenwashing [News Delivering App, for France]** [App Store Link](#)
 - Developed and successfully published a French-market news application on the Apple App Store. I managed the entire software development lifecycle—from gathering initial requirements to final deployment—ensuring the app met strict international standards and delivered a seamless user experience.
- **Ubhayam: [Donation app that supports temple's vital needs directly and easily]**
 - App featuring temple discovery, transparent need-based support (including completed causes), personalized temple selection (family/favorites), and a collaborative cause suggestion system.
- **FirstDate: [AI-powered Dating App]**
 - App that crafts the perfect first message and suggests personalized date ideas. Based on shared interests and food preferences, our AI pinpoints the top 5 activity and restaurant options, perfectly situated between both users.
- **Fortis HRIS: [Human Resource information management app]**
 - The Fortis HRIS App simplifies leave & outside visit management for factory workers & employees. It digitizes leave applications and approvals, eliminating paperwork. Workers can apply for and get leave permission directly on their phones. The app also tracks attendance and provides employee details. Designed for easy use, it caters to all employees, including those without computer access.

PUBLICATIONS

- **PPILS: Protein-protein interaction prediction with language of biological coding.** In *Computers in Biology and Medicine*, pp. 57-65. Elsevier. 2005, Amsterdam. DOI: 10.1016/j.compbio.2005.02.008
- **AI based solutions for Software Engineering.** Published in *ResearchGate as Preprint*
- **Analysis of Convolution and Transformer-based Neural Network for Husk Image Classification.** Published in *ResearchGate as Preprint*

HONORS AND AWARDS

- **Question MindMap (QMM)** JULY 2022
Preparing the workshop: "Developing an Engineering Thinking Mindset" 
- **HUAWEI Training** DECEMBER 2021
The future of Mobile App Industry 

VOLUNTEER EXPERIENCE

- **Event Coordinator** MARCH 2020
Korean Club(Independent University, Bangladesh) 
 - * Organizing Korean Fest
- **Logistics Management** OCTOBER 2019
Division of Student Activities - DoSA(Independent University, Bangladesh) 
 - * Assisted in managing inventory, shipments, and transportation coordination to optimize logistics operations and support supply chain efficiency.
